

Personal Retirement Bonds Investment Options

As a Personal Retirement Bond (PRB) holder you can choose from a wide range of investment funds. This document gives you an overview of the funds available, including information about the assets that the funds are invested in, risk ratings for each fund and the charges.

Monthly fund fact sheets are available in the investment centre of our website www.irishlifecorporatebusiness.ie

You may choose to either

- A. Invest in the 'EMPOWER Personal Lifestyle Strategy (EMPOWER PLS)', which will automatically transfer you to lower risk funds as you approach retirement.
- Or
- B. Invest in a 'Self Select' choice of funds (up to a maximum of 5) across a spectrum of risk categories.

Warning: The value of your investment may go down as well as up.

A. EMPOWER PLS

The EMPOWER Personal Lifestyle Strategy (EMPOWER PLS) is an innovative investment solution for Personal Retirement Bond (PRB) holders.

Investing your PRB into EMPOWER PLS has two main benefits:

Managing Investment Risk

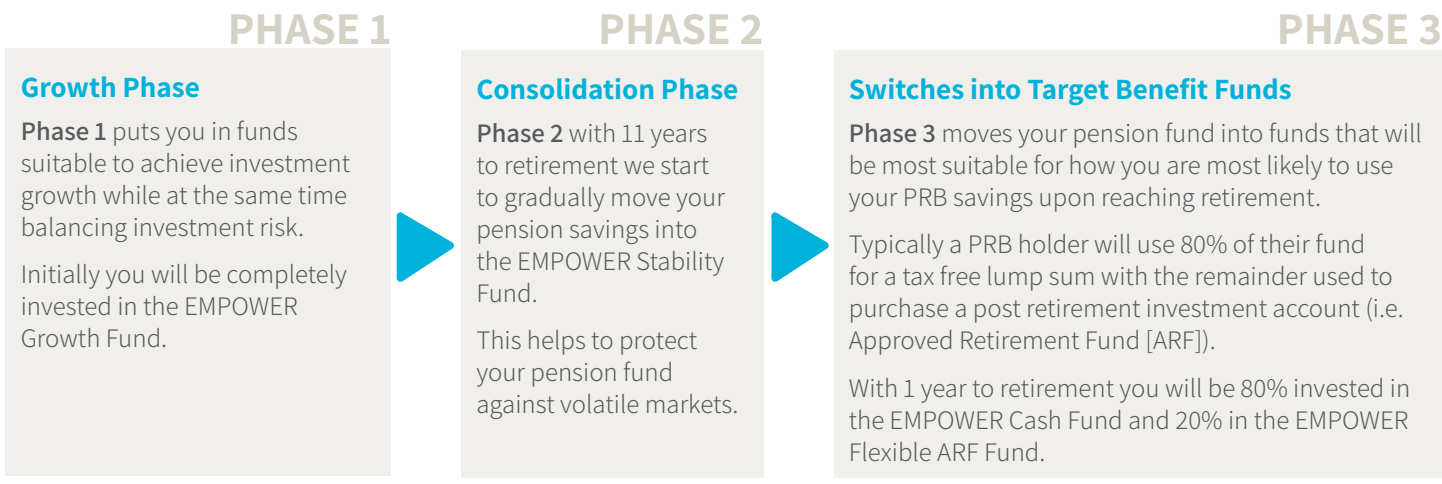

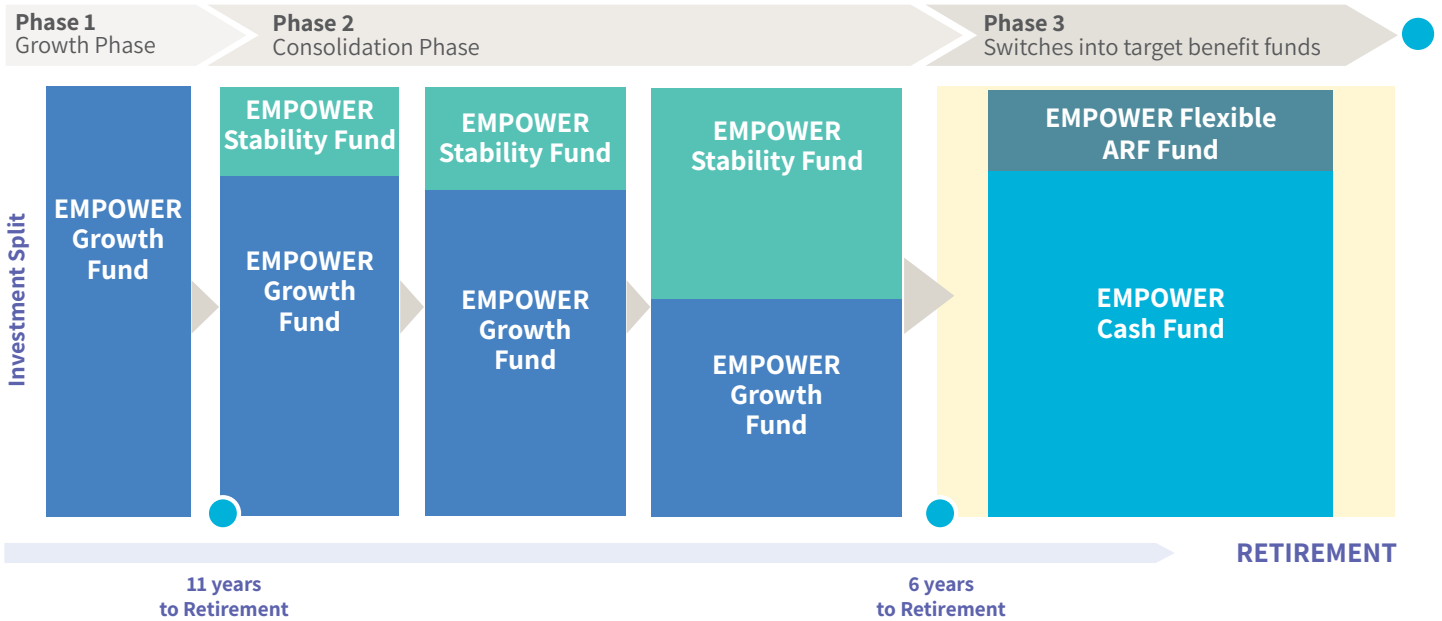

EMPOWER PLS helps protect your pension fund value against market fluctuations by switching you into lower risk funds as you get closer to your retirement date.

Personalised Fund Switches

EMPOWER PLS directs your investment into appropriate funds that best match the benefits that you are likely to take on your retirement.

EMPOWER PLS consists of three phases which span the years of your PRB investment. It starts from the moment you join the strategy up to your retirement date.

The standard annual fund management charge for each fund used in EMPOWER PLS is 0.75% per year.

If you invest in EMPOWER PLS then all of your PRB must be invested in this strategy, you cannot select other funds and have the EMPOWER PLS features outlined here.

Irish Life are committed to ensuring EMPOWER PLS remains the optimum strategy for you. We therefore reserve the right to alter the mix of the assets and funds being used to underpin the strategy as required to ensure the strategy objectives are being met.

- Warning: The value of your investment may go down as well as up.
- Warning: These funds may be affected by changes in currency exchange rates.
- Warning: If you invest in this product you will not have any access to your money until you retire.
- Warning: If you invest in this product you may lose some or all of the money you invest.

Securities Lending: The assets in these funds (except the EMPOWER Cash Fund) may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.

B. Self select choice of funds

If you do not invest in EMPOWER PLS and wish to select your own fund choice, the following investment funds are available to you. Funds are categorised by the level of risk involved. We have a risk ratings system from 1 to 7, with 1 being the lowest risk and 7 the highest risk level.

The Sustainable Finance Regulation Disclosure (SFDR)

This product offers a range of funds options for individuals to choose from, though not all options are available to all members. Some of these fund options promote environmental or social characteristics. Whether your retirement account attains these environmental or social characteristics depends on whether you invest in one or more of these funds during the recommended holding period.

Under SFDR, the Trustees must identify and provide prospective members with pre-contractual disclosures for fund options categorised as meeting the provisions set out in Article 8 or Article 9 of that regulation. This categorisation applies to funds which promote environmental and / or social characteristics or which have sustainable investments as their objective. These disclosures, which are produced by the fund manager in accordance with SFDR, provide further details on how the sustainability related ambitions of each fund are met.

The current Article 8 funds available through the PRB are:
