FUND DESCRIPTION

The Consensus Fund is a passively managed fund that aims to provide performance that is consistently in line the average pension managed fund performance over rolling 3-year periods. Having implemented the average asset allocation, the fund's stock selection matches the appropriate benchmark index. . It is suited to those investors who want long-term managed fund growth without manager and stock selection risk. The fund is considered a high risk fund for short term investors e.g. 10 years or less. However, generally the longer investments are held the less volatile they become, so the fund is considered medium risk for longer term pension investors.

Warning: If you invest in this product you may lose some or all of the money you invest.
