FUND DESCRIPTION

The Indexed World Equity Fund is a passively managed equity fund that aims to track the FTSE® World Index thereby achieving global market equity returns on a consistent basis. We achieve this by investing in the same equity stocks as those of the index in the same weightings. This removes the risk of poor stock choice. This is a very high risk fund which can have a very high level of volatility. Therefore it may not be suitable for investors who have less than 13 years to retirement. The fund is most suitable for long term investment.

Warning: If you invest in this product you may lose some or all of the money you invest.
